Hi Arkwood Team,

For those interested, the complete Field Investigation Summary Report for the Oct 2014 sampling event can be downloaded by following the instructions below. Attachment 7 in the report is the Data Evaluation Summary Report which contains three appendices: the data summary tables and RPD calculations; the laboratory analytical reports and case narratives; and a data review memo regarding the PRP lab data.

Thanks,

Stephen L. Tzhone

Subject: Arkwood info ready for download

Stephen,

Below is a link to our public ftp site, where a copy of the Arkwood report is currently stored, along with a working user name and password. The report is the Field Investigation Summary Report for the October 2014 sampling event, with a Data Evaluation Summary Report and many other things attached to it, all in one huge pdf. It's around 160 MB, so it might take people a while to download it. But I just checked it and I was able to successfully download and open it from a conference room in a hotel in New Mexico.

The file will be there for a couple of weeks so people can download it (as you requested) and then it will be deleted by our IT department. Let me know if you need to have it uploaded again later, or if people have trouble downloading the file.
